16th ART MIND

Alex Grey Documentary/Discussion

Is it possible that art has the power to heal? Could it be that the sacred monuments, paintings and sculptures from ancient civilizations around the world were created to evoke more than just beauty alone? Do they also have the power to heal us? During this video Grey discusses the power of Sacred Art to bring us face to face with divine reality. After describing the life experiences, sacred teachings and painters that have inspired his own artistic vision, he takes us on a whirlwind tour of the Sacred Art of spiritual traditions from around the world, demonstrating to us how these works of art have been used in the past and can be used today to revitalize our health and sense of well-being and discover our divine potential.

23rd THE ONENESS OF CONSCIOUS REALITY – Tom Nehrer

Tom Nehrer's introspective presentations illustrate the innate Oneness of Consciousness/Reality – how we invariably create patterns in life and how to change them. He may regard core meaning in the teachings of Jesus and Gautama or modern mystics, the roots of western philosophy, life/death issues, techniques for delving inward to accomplish real change – or expose widespread fallacy in standard religion and science. Tom's talks are unique, spontaneous, iconoclastic, very personal – and always beneficial.

20th INFINITY, THE ULTIMATE TRIP

Journey Beyond death – A film by Jay Weidner

Throughout human history, altered states of consciousness have been considered a source of deep knowledge, wisdom, and insight to the ultimate truths of life. While modern society often assumes that ordinary “rational” consciousness is the only state of mind that reflects “reality”, philosophers, visionaries, mystics, and shamans have most often believed the opposite. They have taught that deeper states of mind exist, states where what is truly real in the deepest sense can be experienced far more directly, free from many of the illusions and limitations of ordinary consciousness.
